ARLIN QUALITY POLICY

Arlin is a family-managed supplier of professional grade components to the electronic and electrical industry since 1975.

All members of our staff are committed to the principle of Quality Assurance. We have a formalised Quality Assurance System based on ISO Standards, with a Quality Policy and a Quality Manual outlining detailed procedures.

Arlin is committed to maintaining:

- Supplies of professional grade components from selected sources of established quality.
- Local stocks adequate for customer needs.
- Customer engineering support from our own qualified staff.
- Long term financial stability by maintaining adequate resources to meet suppliers' payment terms in respect of any customer contract.
- Good relationships with both suppliers and customers, by personal attention to all requirements.
